## PERSONAL SUMMARY

Freelance gaffer with a strong background in indie films and commercials, experienced in leading teams on medium-sized productions.

I bring significant expertise in wireless control technology, which I use to achieve more efficient setups. My hands-on approach and collaboration with DOPs, including Doug Milsome BSC and Dave Procter BSC, enable me to adapt to various production scales, from independent films to larger projects, while focusing on creative lighting solutions.

Additionally, I've served as Best Boy on two feature films, further honing my team management skills within the electrical department, and my collaboration with the wider production team.

## QUALIFICATIONS/SKILLS

- BS 7909 City&Guilds qualification in Temporary Electrical Systems
- IPAF 3a & 3b operator license for cherry pickers and scissor lifts
- Adept in wireless control software (Luminair, Astera App, Sidus Link, etc)
- Experience in leading teams as Gaffer and Best Boy on larger productions

## ACADEMIC BACKGROUND

### University of Westminster

BA in Film | First Class (Hons)

ScreenSkills accredited course focusing on practical cinematography
